PACK YOUR BIKE

HOW TO PACK YOUR BIKE

- Turn handlebars to the left by releasing two bolts (one each side of handlebar stem). Turn to left and retighten.
- Ideally, we would prefer that you also lower your handlebars and saddle to the lowest setting where possible.
- Remove pedals (unscrew clockwise for left pedal and anti clockwise for right pedal). You will need to carry your pedals separately in your overnight bag that you bring with you to the Ride.
- Lag framework using pip lagging as detailed in diagram (may need tape to secure)
- Add your bike number to the front of your bike using the provided cable ties (you will

receive this bike number and cable ties approximately 3 weeks before the Ride, in plenty of time for your bike transport!

- The wheels don't need to be removed.
- We prefer it if you do not lock your bike whilst it is in transit, as the bike lock could add potential for bike damage.
- Please ensure your handlebars and pedals are retightened before use after transit.
- Your bike will need to be prepared as outlined. European Bike Express cannot accept responsibility for damage to framework that has not been lagged in accordance with their instructions.

BIKE & LUGGAGE TRANSPORT: HUBS FAQS

PACKING YOUR BIKE

How do I need to pack up my bike?

- Your bike will need to be prepared as per the diagram on page 7. European Bike Express cannot accept responsibility for damage to framework that has not been lagged in accordance with their instructions.
- Your bike will then be placed into the vehicle in a specialised loading system ensuring that your bike is secure and not in any position to touch another bike on the vehicle during transit, thus eliminating any damage.

How do I mark up my bike with ID before I drop it off?

- Approximately 3 weeks ahead of the ride you will be sent a bike number with cable ties (relevant to the colour zone that you will be allocated to) with instructions of how to securely attach this to your bike for transport and for the Ride.
- If you have selected to use a bike bag/ bike box, you will also receive a label/ sticker to use on the outside to ensure your package is clearly identified. Please make sure that your address is up to date on your registration with Threshold Sports as this is where your labelling will be delivered.

BIKE BOXES / BAGS

Can I use a bike bag, or a bike box?

- You do have the option to use your own bike bag or a bike box, however pipe lagging is advised due to the specialised

loading system used by EBE within the vehicles.

- If you do use your own bike bag/bike box, you will need to pay an additional fee when booking, to cover the transport of the bag/box from Land's End to JOG. Bike bags and bike boxes will be transported direct from Land's End to JOG and therefore will not be accessible during the Ride at any point (you cannot use these for additional luggage space during the Ride).

If I am transporting my own bike down to Land's End and back from John O'Groats, are you able to transport my bike bag/bike box for me from Land's End to JOG while I'm cycling?

- Yes. You can book transportation of a bike bag or bike box even if you are not using the bike transport. This will then be transported up to John O'Groats for you, so you can re-pack your bike at the end of the ride.
- Bike bags and bike boxes will be transported direct from Land's End to JOG and therefore will not be accessible during the Ride at any point (you cannot use these for additional luggage space during the Ride). The charge for transportation of your bike bag / bike box is £32.
