## Pack your bike

### How to pack your bike

- Please prepare your bike with pipe lagging as shown below at JOG. Pipe lagging will be provided at JOG, along with tape, tools etc.
- Remove pedals (unscrew clockwise for left pedal and anti-clockwise for right pedal). You will need to carry your pedals separately in your overnight bag that you bring with you to the Ride.
- Lag framework using pip lagging as detailed in diagram (may need tape to secure).
- Turn your handlebars through 90 degrees to the left.
- The wheels do not need to be removed.
- We prefer it if you do not lock your bike whilst it is in transit, as the bike lock could add potential for bike damage.
- Please ensure your handlebars and pedals are retightened before use after transit.
- Add your bike number to the front of your bike using the provided cable ties (you will receive this bike number and cable ties approximately 3 weeks before the Ride, in plenty of time for your bike transport!
- Your bike will need to be prepared as outlined. European Bike Express cannot accept responsibility for damage to framework that has not been lagged in accordance with their instructions.
- Lights, Garmin's, water bottles, bags and helmets need to be removed from your bike.
